

1. Scope

This policy applies to all staff at Expanse Learning Wigan School (Hereafter referred to as the School).

2. Aim

The school aims to ensure that:

- All risks that may cause injury or harm to staff, students and visitors are identified, and all control measures that are reasonably practicable are in place to avoid injury or harm
- Risk assessments are conducted and reviewed on a regular basis

3. Legislation and statutory requirements

This policy is based on the following legislation and Department for Education (DfE) guidance:

- Paragraph 16 of part 3 of The Education (Independent School Standards) Regulations 2014 which requires proprietors to have a written risk assessment policy
- Regulations 3 and 16 of The Management of Health and Safety at Work Regulations 1999 require employers to assess risks to the health and safety of their employees
- Regulation 4 of The Control of Asbestos Regulations 2012 requires that employers carry out an asbestos risk assessment
- Employers must assess the risk to workers from substances hazardous to health under regulation 6 of The Control of Substances Hazardous to Health Regulations 2002
- Under regulation 2 of The Health and Safety (Display Screen Equipment) Regulations 1992, employers must assess the health and safety risks that display screen equipment pose to staff
- Regulation 9 of The Regulatory Reform (Fire Safety) Order 2005 says that fire risks must be assessed
- Regulation 4 of The Manual Handling Operations Regulations 1992 requires employers to conduct a risk assessment for manual handling operations
- The Work at Height Regulations 2005 say that employers must conduct a risk assessment to help them identify the measures needed to ensure that work at height is carried out safely
- DfE guidance on first aid in schools says schools must carry out a risk assessment to determine what first aid provision is needed
- DfE guidance on the prevent duty states that schools are expected to assess the risk of students being drawn into terrorism
- The Health and Safety Executive (HSE) say schools that manage their own pools must conduct a risk assessment

A table of all the risk assessments schools are required to have in place can be found in appendix 1 of this policy. This policy complies with our funding agreement and articles of association.

4. Definitions

Risk assessment = A tool for examining the hazards linked to a particular activity or situation, and establishing whether enough precautions have been taken in order to prevent harm from them based on their likelihood and their potential to cause harm

Hazard = Something with the potential to cause harm to people, such as chemicals or working from height

Risk = The chance (high or low) that people could be harmed by hazards, together with an indication of how serious the harm could be

Control Measure = Action taken to prevent people being harmed

5. Roles and responsibilities

Staff & Volunteers

- Staff are responsible for taking reasonable care of their own safety, together with that of students and visitors.
- They are responsible for cooperating with the Corporate Services Team (CST) and other members of the SLT in order to enable the Governors to comply with their legal health and safety responsibilities.
- All members of staff are responsible for reporting any risks or defects to the CST or through the Health and Safety "See it- Report it" platforms available to them.
- Assisting with, and participating in, risk assessment processes, as required

- Familiarising themselves with risk assessments
- Implementing control measures identified in risk assessments
- Alerting the CST to any risks they find which need assessing

Corporate Services Team

The Chief Executive Officer (CEO) (Duty Holder) has ultimate responsibility for health and safety matters in the school. The CST is responsible for ensuring that all risk assessments are completed and reviewed.

The governing board

The governing board has a duty to take reasonable steps to ensure that staff and students are not exposed to risks to their health and safety.

Any activity that is classified as a Category C activity will reviewed and challenged during scheduled Governors meetings. This applies to activities on or off the school premises.

The governing board also has a duty to:

- Assess the risks to staff and others affected by school activities in order to identify and introduce the health and safety measures necessary to manage the risks
- Inform employees about risks and the measures in place to manage them

Students and parents

Students and parents are responsible for following the school's advice in relation to risks, on-site and off-site, and for reporting any hazards to a member of staff.

Contractors

Contractors are expected to provide evidence that they have adequately risk assessed all their planned work.

6. Risk assessment process

When assessing risks in the school, we will follow the process outlined below. We will also involve staff, where appropriate, to ensure that all possible hazards have been identified and to discuss control measures, following a risk assessment.

Step 1: identify hazards – we will consider activities, processes and substances within the school and establish what associated-hazards could injure or harm the health of staff, students and visitors.

Step 2: decide who may be harmed and how – for each hazard, we will establish who might be harmed, listing groups rather than individuals. We will bear in mind that some people will have special requirements, for instance students with special educational needs (SEN) and expectant mothers. We will then establish how these groups might be harmed.

Step 3: evaluate the risks and decide on control measures (reviewing existing ones as well) – we will establish the level of risk posed by each hazard and review existing control measures. We will balance the level of risk against the measures needed to control them and do everything that is reasonably practicable to protect people from harm.

Step 4: record significant findings – the findings from steps 1-3 will be written up and recorded in order to produce the risk assessment. A risk assessment template can be found in appendix 2 of this policy.

Step 5: review the assessment and update, as needed – we will review our risk assessments, as needed, and the following questions will be asked when doing so:

- Have there been any significant changes?
- Are there improvements that still need to be made?
- Have staff or students spotted a problem?
- Have we learnt anything from accidents or near misses?

Step 6: retaining risk assessments – risk assessments are retained for the 3 years after the length of time they apply. Risk assessments are securely disposed of.

7. Group/OOCA Risk Assessment

All planned activities will be categorised into the following levels

Category A activity is as follows:

Supervised walk – about interest trips in the local area;
Supervised visits to local places of interest, museums, theatres, libraries etc;
Similar visits involving transport but not involving overnight accommodation.
Timescale: 7 days before planned activity
Approval by: Line Manager (or Deputy)

Category B activity is as follows:

Supervised interest visits requiring overnight accommodation;
Works involving the use of tools / equipment;
Visit to a place of employment; and
Participation in sports and similar events.
Timescale: 14 days before planned activity
Approval by: CST

Category C activity is as follows:

Camping;
Trips abroad;
Outdoor adventure activity e.g. orienteering; sailing etc
The form is to be completed by Identifying the hazard, once they have been identified you will need to describe what Preventative and Protective Measures are in place. You will then need to describe what Outcome/Objective is looking to be achieved. Once this has been determined then using the risk Matrix you will be able to identify the risk level the activity is determined at.
Timescale: 28 days before planned activity
Approval by: Board of Directors

8. Training

All employees will receive competence training prior to creating any Risk Assessments. The competence of all staff must be approved by the CST and recorded in the organisational training records. All training will be reviewed annually to ensure that the organisation complies with Legal and Statutory requirements.

9. DatabridgeMIS

All Activity Risk Assessments will be completed within DatabridgeMIS. Please refer to Appendix 1 for the operating procedure.

10. Monitoring arrangement

Risk assessments are written as needed and reviewed by the CST

This policy will be reviewed by the CST every 12 months and approved by the Board of Directors.

At every review, the policy will be challenged by the governing body

Links with other policies

This risk assessment policy links to the following policies:

- Health and safety
- First aid

Impact of non-compliance for:

Staff: Disciplinary action, prosecution

Student: Not applicable

Legislation/organisational: Reputational damage, litigation, statutory and non-regulated compliance. prosecution

Compliance lead: Corporate Services (Corporate Services)
