The teachers will try to address the student's needs through differentiation tasks and make use of the support staff. We also make sure we give our students pride within their achievements and we want to make sure our students are always valued.

## **7. Assessment for Learning**

At the School, we are continually assessing and measuring our students and recording their progress through BKSb, Active learn (where appropriate) and personal targets within the classroom session as visual feedback. We see assessment as a vital part of the teaching process and make sure they are purposeful. This will allow us to match the correct work to the needs of each student, therefore benefiting the students and ensuring progress. We are using trackers such as BKSb and self-assessments to track progress. Students will complete units test after completing each topic to show progress and improvement to how we can make our learning better.
